THEREFORE, in consideration of the mutual agreements expressed herein, it is agreed as follows:

II. SCOPE OF WORK

Obtain any necessary drainage easements required for the State facilities.

b. Confer with the City in the design and construction of additional drainage facilities relating to Chaparral Wash outside of the State right-of-way, but which will intercept and connect with the State's drainage facilities. Review the City Project design documents and provide comments.

c. Upon completion of construction, maintain the SR-95 Chaparral Wash drainage facilities within the State right-of-way and West to the end of the closed system.

2. The City will:

a. Review the State's SR-95 drainage design documents and provide comments. Design the Project to State approved criteria. Provide City design documents to the State for review and incorporate State design review comments.
